Paultery firming small scales in maldives

Date 20/02/2025

Chicken and its egges are primery food item for every developing society in maldives our population is living in remote islands so traspotation cost is a mtter of inflation as well as healthy living etc.

Project opbjective.

to supply healthy organic food to island population to grow small and large scale paultery industry in south male to empower maldivians amongest the poor families living at the island to maintain low cost high nutriant egg and live chiken stock available

Proposal

this project is 100% funded by privet local individuals and the project is designed specially to fivoaree proposed land for lease longe term sustainable development of fivoaree economic growth.

we propose to invest for a paultery firm and run this in our own cost for 25 years and we grant the eggs and live chiken stock to cater the whole community of this island at a very low cost.

we suggest fivoaree for this project as the island have enough land for this type of projects and there we find isolated land, away from the living community so that the firm will be in safe and scure land other reason for the project at this island is the reasonable land rent if we are able to start this project at this island we will do our best to help the living society and we will send the school leavers for training abroad in related fields and employ the island community as well there are many indirect benefits to the shops ,hotel, restorants,

Terms and conditions

- 1- we must get all rights to secure the bounderies surounded by the land
- 2- we must get all the permissions build the staff acomodations
- 3- electricity connection arrangments need to be proceed
- 4- minimum 15 to 20 years period is needed
- 5- the land should be minimum 20,000sq ft land
- 6- there should be no limit and no restriction for the paultery firming

Operation

operation weill be run under the guide line of the relavant government agencies agencies and licenced experts will be visiting on site and the eggs hacheries meet chopers clean water supply will be used for the processing we always maintained the rules and regulations of the regulatory bodies during this operation the health and secrity is compulsery in all aspects we are estimating to deliver 200 eggs and 15 live chickens for the market we will sell the baby chikens 1 day every week at the beginning we will prepair the land for this paultery and our staffs will be acomodated out side the site but later we will built acomodation for the staffs in site

24 cc tv and our security officers will be watching the whole area

Remarks

this model is fit for many islands of maldives so we hope the proposal for this

project will be beneficial for the islnd community and both so belive that you will consider this as a very good opotunity and this will be come reality in future

thank you
